

# XTS >> A combi unit plug-and-play for all environments, even the toughest! **Now available**

By joining the Xtender family the XTS series make it a 13 models inverter-chargers range.

Its **IP 54 casing** offers a protection against water, dust and tiny animals intrusion.

The XTS is also the first inverter-charger on the market that is **electronically protected against reverse polarity!**

### Range:

- XTS 900-12 : 900 VA \* / 12 Vdc / 35 A
- XTS 1200-24 : 1200 VA \* / 24 Vdc / 25 A
- XTS 1400-48 : 1400 VA \* / 48 Vdc / 12 A

\* P30 with ventilation (optional module ECF-01)

### Important remarks:

- Basic settings without any accessory.
- Module TCM-01 mandatory for the use of the communication accessories and for multi-unit systems.
